As an attorney you play a critical role in the American Legal System; equally important is the judge's role in the system. Join us as we explore the roles of the attorney and judge and how these roles differ and how they compliment each other. By gaining a better understanding of both these roles, you will enhance your effectiveness on behalf of clients. Taking on the judge's role in the MSBA Mock Trial Program allows you to reflect on your own core values as you evaluate the performance of the students modeling attorneys and witnesses at trial. Your participation will undoubtedly better your practice.
